HEAVY GLASS FEATURES

GENERAL

Heavy glass shower enclosures have become the new standard in bathroom shower design and offer a multitude of design possibilities.

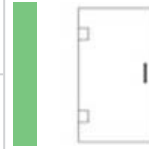

We have a vast array of hardware options available in a multitude of finishes. Glass-to-wall or glass-to-glass hinges are mounted at the side of the door and allow the door to open 90 degrees. U-channel and/or clamps are used to secure your fixed panels of glass in the shower opening.

GENERAL MAINTENANCE

For best results and to maximize the performance of your shower glass protected with ClearShield™, it is recommended to squeegee off excess water and towel dry whenever possible.

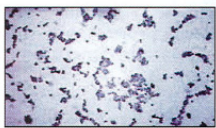

As needed, clean shower glass with a soft cloth and a simple mixture of 80% water and 20% vinegar. Place mixture in a spray bottle, apply to glass and wipe clean with a microfiber cloth.

Glass Cleaners like Windex and Glass Plus, will not harm glass protected with ClearShield™, although they are unnecessarily strong and could affect the metal of your enclosure. Never use commercial strength cleaners or products such as Lime Away or CLR on ClearShield™ Glass.

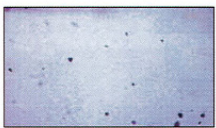

DO NOT USE...

- Any abrasive scouring powders or pads
- Highly acidic / alkaline cleaners
- Sharp instruments (razor blades or hard instruments) to clean your protected glass
- Cleaners containing hydrofluoric and phosphoric acid
- All these item/products can permanently damage the coated glass

ClearShield also keeps your glass hygienically clean by reducing bacteria growth!

GUARDIAN SHOWERGUARD

You can scrub hard, but standard shower glass won't stay clear long. Hard water, heat, humidity, soap and even cleaning agents can spot, discolor and corrode the surface of ordinary glass, making it look dull over time. ShowerGuard glass provides permanent, proven protection. It stays beautiful for a lifetime—guaranteed.

ShowerGuard glass is coated using a patented technology. The result is an invisible protective barrier that prevents the glass from showing signs of age and build up of permanent damage. Let ShowerGuard glass complement your bathroom design with lasting beauty.

ShowerGuard permanently seals the surface of the glass for lasting beauty with less maintenance. Using patented ion-beam technology, an invisible protective coating is fused to the surface, filling the peaks and valleys that occur naturally in glass and creating a smooth surface highly resilient to the dirt, soap and hard water buildup that dulls and etches ordinary glass.

ShowerGuard's permanent protective coating is applied to clear glass during manufacturing, with no visible difference in clarity and the same ease of cleaning as ordinary glass. What you will notice is how great it looks without corrosion, scum or stains for years to come.
